THE COAL FIELDS.

A Ringing Letter to the Secretary of Interior by Surveyor General Royal A. Johnson.

DISTRICT OF ARIZONA, Tueson, Dec. 30th, 1884. Hon. Henry M. Teller, Secretary of Interior, Washington, D. C.

Sin: I desire to call your attention to the coal fields from the San Carlos In-

To my mind the most important this Territory, I can say without fear of of our entire people, as the question of an accessible, economical and suitable tel. The stagnation in the mining dustry in this Territory is attributable o the great cost of reduction of ores, and this state of affairs must exist to a

very great extent, until a coking coal can be obtained at a price within the bounds of reason. When we consider that these coal beds are lying idle, unused, and ill adapted to the customs, or wants of the Indians, while the citizens of the Territory, a people who work, and live under the many disdvantages attendant upon a newly settled country, are actually suffering in properly, for want of this fuel, it seems a great hardship. Its present status is not unsumifar to the old "dead line" of war times. The coal fields seem to be left as an aggravated temptation to our people, inasmuch as they are absolutely useless to the Indians, and from my understanding of the matter, I cancol day or two ago, to spend a week or two see that the Indians have the elightes property right in this coal, further than At the opening of the District Court | the fact, that they are allowed to live
